**Plan Adoption Date:** September 16, 2010

#### **Plan Goals:**

- Goal HOU 1 - An array of housing choices throughout the area with an appropriate mix of densities and housing types
- Strategies: HOU-1.1 Encourage a mix of housing types, including multi-family homes, custom homes, garden homes, and single-family detached homes to provide “life cycle” housing options (ranging from college students, young adults, families, and retired/senior) within the area.
- 

### **Comprehensive Land Use Categories**

#### **Land Use Category: “Rural Estate Tier”**

**Description of Land Use Category:** Rural Estate Tier includes large tract detached single family housing; Served by central water and septic systems; Lots greater than 1/2 acre. Outlying areas where detached and limited retail services such as convenience stores, service stations, professional offices, restaurants, bed and breakfasts, and other small businesses are appropriate. Commercial uses to serve these low-density rural estate neighborhoods should be located at the intersection of arterials, collectors, and/or rural roads. Although these uses are small scale, they serve a large geographic area and therefore are primarily accessed by car, nearby road should be friendly to bicycles and pedestrians.

**Permitted Zoning Districts:** RP, RE, R-20, NC, O-1, RD

### **Comprehensive Land Use Categories**

#### **Land Use Category: “Suburban Tier”**

**Description of Land Use Category:** Suburban Tier includes small and large tract attached and detached single family; Multi-family housing (duplex, triplex, quadplex); townhomes, garden homes, and condominiums. Neighborhoods where detached retail services such as service stations, professional offices, bakeries, restaurants, bookstores, supermarkets, clinics, hotels, and other retail stores are appropriate. Commercial uses in Suburban areas serve both neighborhood and community scale markets. Neighborhood commercial is appropriate at the intersection of residential streets and collectors and should not encroach into residential areas. Neighborhood uses should be accessible by pedestrians. Community commercial should be located at the intersections of arterials and/or collectors. The intensity of the commercial use should not interfere with the

character and density of nearby residential uses and adequate buffers should be maintained. Community commercial uses should be accessible by car and bike, and the commercial areas should be pedestrian friendly.

3. Continue to a future date.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and Planning Commission recommend Approval.

The proposed Plan Amendment from “Rural Estate Tier” to “Suburban Tier” is requested to rezone the property to “C-2” Commercial District and “R-4” Residential Single-Family District, to develop residential dwelling units and to permit commercial uses on the property. The subject property is in a rural area, with an established low-density residential development pattern east of the property. The proposed “Suburban Tier” is compatible with the surrounding area and would introduce an appropriate level of density to the area. The subject property is south of Loop 1604 and is sizable in comparison to the surrounding properties. These physical characteristics are ideal for the introduction of additional density and commercial uses, and the proposal is consistent with the goals of the Strategic Housing Implementation Plan.

**Sector Plan Criteria for review:**

- The recommended land use pattern identified in the Heritage South Sector Land Use Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the Heritage South Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the Heritage South Sector Plan.

**The amendment will not adversely impact a portion of, or the entire Planning Area by;**

- Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
- Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
- Creating activities that are not compatible with adjacent neighboring uses.
- Significantly alter recreational amenities such as open space, parks, and trails.
