COMPREHENSIVE PLAN

Comprehensive Plan Component: Downtown Area Regional Center Plan

Plan Adoption Date: December 5, 2019

Plan Goals:

Goal 4: Diversify the Mix of Uses in the Downtown Core

Goal 6: Broaden the Diversity of Housing Options throughout the Downtown Core and its Neighborhoods

Goal 7: Create Greater Opportunities for Parks, Public Space, and Recreation

Goal 9: Enhance Wayfinding, Key Gateways and Critical Connections

COMPREHENSIVE LAND USE CATEGORIES

Land Use Category: "Urban Low Density Residential"

Description of Land Use Category: Urban Low Density Residential includes a range of housing types including single-family attached and detached houses on individual lots, small lot residences, duplexes, triplexes, fourplexes, cottage homes, manufactured homes, low-rise garden-style apartments, and manufactured home parks. This land use category may also accommodate small scale retail and service uses that are intended to support the adjacent residential uses. Other nonresidential uses, including, but not limited to, schools, places of worship, and parks are appropriate within these areas and should be centrally located to provide easy accessibility.

Permitted Zoning Districts: R-1, R-2, R-3, R-4, R-5, R-6, RM-5, RM-6, MF-18, IDZ-1, MH, MHC, MHP, MXD, and NC. Typical densities in this land use category would range from 7 to 18 dwelling units per acre. PUD and TOD may be considered consistent with this land use category, provided the permitted uses included on the zoning site plan and zoning ordinance are consistent with the uses and densities outlined above.

Land Use Category: "Medium Density Residential"

Description of Land Use Category: Medium Density Residential accommodates a range of housing types including single-family attached and detached houses on individual lots, manufactured and modular homes, duplexes, triplexes, fourplexes, and low-rise, garden-style apartments with more than four (4) dwelling units per building. Cottage homes and very small lot single-family houses are also appropriate within this land use category. Higher density multi-family uses, where practical, should be located in proximity to transit facilities. Certain nonresidential uses, including, but not limited to, schools, places of worship, and parks are appropriate within these areas and should be centrally located to provide easy accessibility.

Permitted Zoning Districts: Permitted zoning districts: R-1, R-2, R-3, R-4, RM-4, RM-5, RM-6, MF-18, MF-25, MF-33, IDZ-1, IDZ-2, MH, MHC, MHP, and MXD. Typical densities in this land

use category would range from 13 to 33 dwelling units per acre. PUD and TOD may be considered consistent with this land use category, provided the permitted uses included on the zoning site plan and zoning ordinance are consistent with the uses and densities outlined above.

ISSUE:

None.

FISCAL IMPACT:

There is no fiscal impact.

ALTERNATIVES:

1. Recommend Approval.
2. Make an alternate recommendation.
3. Continue to a future date.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Denial.

The applicant seeks a Plan Amendment to “Medium Density Residential” to rezone to “IDZ-2” Medium Intensity Infill Development Zone District with uses permitted for eight (8) dwelling units. The proposed “Medium Density Residential” land use is not appropriate for the area. Surrounding land uses consists of “Urban Low Density Residential”, “Low Density Residential”, and “Parks Open Space”. Introducing a more intense land use of “Medium Density Residential”

will allow for higher residential density that does not match with the existing single-family residential, low density residential character of the neighborhood.
