Passenger Facility Charge eligible projects

Funds cannot be used for as City's share for other FAA projects

03

## **Funding Share**

FAA: 75%

COSA: 25%

04

## **Federal Solicitation Requirement**

Must be solicited under the Federal Aviation Administration's Disadvantaged Business Enterprise Program (DBE)

# Pavement Maintenance Management Program

- Federal Aviation Administration requires airports to update its pavement maintenance management program every three years.
- Consultant will evaluate and monitor the pavement of runways, taxiways and aprons to determine lifespan of pavement and identify future projects.

FAA AIG Amount	City's Share Amount	Total Project Amount
\$408,000	\$136,000	\$544,000

# Outside Plant Campus Ring

- Provides for a second and third redundant fiber connection for current and future terminal facilities and future Terminal C facility. This work will provide additional security.
- Also provides future telecommunications flexibility to grow and expand technology solutions surrounding the airfield.

FAA AIG Amount	City's Share Amount	Total Project Amount
\$4,912,500	\$1,637,500	\$6,550,000

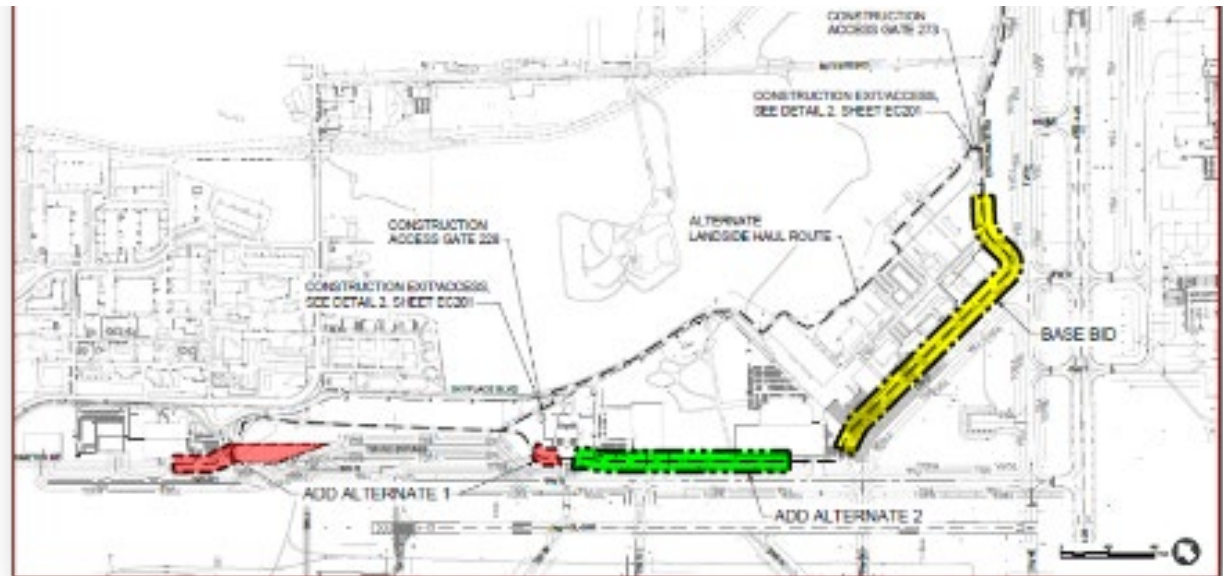

# Emergency Response Road

- Also known as the Perimeter Road Reconstruction Package 4 project.
- Design and construction for the reconstruction of portions of the Perimeter Road, which surrounds the airfield for non-essential vehicles to travel around the airport campus without impacting aircraft movement.
- Project will include drainage work, striping and landscaping.

FAA AIG Amount	City's Share Amount	Total Project Amount
\$6,571,978	\$2,190,659	\$8,762,637

A nighttime aerial view of San Antonio, Texas, featuring several prominent skyscrapers. On the left, a tall building has a blue sign that reads "BBVA Compass". Below it, another building has a "Wyndham" logo. In the center, a building with a green dome is visible. On the right, a tall, modern building with a blue and yellow facade stands out. The city lights are visible in the background, and the sky is a deep blue.
