## Review of 2021-2022 Head Start End of Year (EOY) Data

The Office of Head Start requires programs to conduct standardized and structured assessments for each child that provide ongoing information to evaluate the child's developmental level and progress across outcomes aligned to the goals described in the Head Start Early Learning Child Outcomes Framework (HSELOF): Ages Birth to Five. Such assessments must result in usable information for teachers, program staff, and parents and conducted with sufficient frequency to allow for individualization within the program year.

The City of San Antonio Department of Human Services (DHS) Head Start Program utilizes the CIRCLE Progress Monitoring System Pre-K (CIRCLE), a standardized, criterion-referenced measure that relates well to established standardized tests and is sensitive to growth in a child's skills over time for children ages 3-5 years old. The results of CIRCLE are used to generate a detailed picture of each child's growth and development across 15 areas so that individualized, developmentally appropriate activities can be planned and implemented. The 15 areas are listed below in Table 1. Students are assessed three times during the program year, Beginning of the Year (BOY), Middle of the Year (MOY), and End of the Year (EOY).

Table 1: CIRCLE Dimensions

| Assessment Areas |  |  |
| :---: | :---: | :---: |
| Rapid Letter Naming (RLN) | Book \& Print Knowledge |  <br> Sentence Skills |
| Rapid Vocabulary Naming | Story Retell \& Comprehension | Motivation to Read |
| Phonological Awareness (PA) | Science | Early Writing |
| Mathematics (Math) | Social Studies | Approaches to Learning |
| Letter-Sound Correspondence | Social \& Emotional <br> Development |  <br> Development |

## Proficiency

The CIRCLE Progress Monitoring System provides a score for each area assessed. Children are described as PROFICIENT if they score at or above the cut point, or threshold, listed in accordance with their age, and indicates if the child is on track and has a developed understanding of the measure. Children are described as NOT PROFICIENT if they score below the cut point, or threshold, listed in accordance with their age and indicates an underdeveloped understanding of the measure and a need for more skill development or intensive intervention. The threshold, or cut point, increases at each assessment. Children may be described as OUT OF RANGE if they are not within the specified age range for the measure, or if there are no established cut points or thresholds for the area assessed.

## Student Outcome Results

The tables below provide student outcome data for CIRCLE for the 2021-2022 school year. The three tables show the percentage of children identified as PROFICIENT in each assessment area. Table 2 provides data for all children enrolled in the program. Table 3 provides data for non-transitioning three-year-olds. Table 4 provides data for four-year-old children transitioning into kindergarten. The percentage of students identified as OUT OF RANGE are not included in percentage.

## Data Analysis

The DHS Head Start Program began using the CIRCLE Progress Monitoring System Pre-K during the 20202021 school year. The information provided below includes program outcomes BOY-MOY for the 20212022 program year.

At the Beginning of the Year (BOY), the percentage of children identified as PROFICIENT is lowest for Rapid Letter Naming (RLN) for both non-transitioning three-year olds and transitioning four-year olds. The percentage of children identified as PROFICIENT is highest for Social \& Emotional Development for both non-transitioning three-year olds and transitioning four-year olds. There is not an established BOY cutpoint, or threshold, for Letter-Sound Correspondence for BOY.

At the Middle of the Year (MOY) the percentage of children identified as PROFICIENT is lowest for Rapid Letter Naming (RLN) for non-transitioning three-year olds and Rapid Vocabulary transitioning four-yearolds. Consistent with the previous school year, the percentage of children identified as PROFICIENT is highest for Letter-Sound Correspondence for non-transitioning three-year olds and Social \& Emotional Development for transitioning four-year olds.

At the End of the Year (EOY) the percentage of children identified as PROFICIENT is lowest for Phonological Awareness for non-transitioning three-year olds and Rapid Vocabulary for transitioning four-year olds. Consistent with the previous school year, the percentage of children identified as PROFICIENT is highest for Letter-Sound Correspondence for non-transitioning three-year olds. Motivation to Read for transitioning four-year olds. The percentage of children identified as PROFICIENT is highest for Motivation to Read and Speech Production \& Sentence Skills for transitioning four-year olds.

The greatest changes in the percentage of children identified as PROFICIENT from BOY-EOY is Rapid Letter Naming (RLN) for non-transitioning three-year olds and Story Retell \& Comprehension for transitioning four-year olds. The greatest change in the percentage of children identified as PROFICIENT from EOY 2020-2021 to EOY 2021-2022 is Rapid Letter Naming (RLN) for both non-transitioning three-year olds and transitioning four-year olds.

Additionally, fidelity to the assessment and assessment protocols to ensure all children receive an assessment continue to be areas of focus for the program.
