Overlay District Information:

The "AHOD" Airport Hazard Overlay District, due to the location of the property and its proximity to an airport or approach path, does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

The Beacon Hill Neighborhood Conservation District (NCD-5) is an overlay zoning district that contains design guidelines for rehabilitation of existing residential and commercial development. Property owners, together with the Department of Planning and Community Development staff, develop the design guidelines. These guidelines can address building materials, height, size, massing, signage, sidewalk location, etc. A zoning review is performed by the Zoning Section of the Development Services Department.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the Midtown Neighborhoods Plan. The requested base zoning districts are consistent with the future land use designations.
2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.

3. **Suitability as Presently Zoned:** Current zoning of the properties in the subject area is a mixture of “R-6” Residential Single-Family District, “MF-33” Multi-Family District, “RM-4” Residential Mixed-Use District and “C-2” Commercial District. The subject area is within the Midtown Neighborhood Plan. No plan amendments required. The 2001 adoption of the Unified Development Code converted all 1938 and 1965 zoning districts to the current zoning districts, in turn, this conversion created some non-conforming uses. The rezoning strategy includes, field and data analysis conducted by staff to make appropriate zoning recommendations based on the current use of properties. Various residentially zoned properties are conditionally zoned for two (2) or more dwelling units as part of the rezoning process to avoid non-conforming uses. Properties were removed from the strategy if already appropriately zoned with their current use.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The proposed change of zoning does not appear to conflict with the following goals and strategies of the Midtown Neighborhoods Plan:

Goal 1: Economic Development: Revitalize and enhance the neighborhoods’ historic commercial centers
 - Objective 1.1: Historic Character
 - Preserve the historic character of the neighborhood commercial centers along Blanco, Fredericksburg, Hildebrand, Flores, and San Pedro
Goal 2: Housing: Preserve and revitalize the neighborhoods’ unique mix of quality housing
 - Objective 2.2: Housing Character
 - Maintain the historic character of the neighborhood’ housing while building on the increased demand for area homes to attract reinvestment by new families.
6. **Size of Tract:** Approximately 198.053 acres.
7. **Other Factors:** City Council approved a resolution on Nov. 9, 2017 (2017-11-09-0042R), directing the Development Services Department to initiate a large area rezoning to appropriate zoning districts for property located in the Beacon Hill Neighborhood. The goal is to align zoning with the current use of properties in the area, consistent with the adopted Midtown Neighborhoods Plan. Throughout the past few decades many areas of the center city have had ongoing concerns regarding zoning inconsistencies. These inconsistencies were the result of the code conversion from the “old” zoning code, which utilized an A-J tiered system of zoning, to the new system we use today. The Large Area Rezoning project is meant to correct these nonconforming issues.

The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.
