COMPREHENSIVE PLAN

Comprehensive Plan Component: Near Northwest Community Plan

Plan Adoption Date: 2002

Plan Goals:

Goal 2 - Economic Development Ensure the Near NW Community's business corridors are filled with a mix of uses including professional offices, residences and busy shops, providing neighbors an attractive place to walk for shopping, playing, working and relaxing both day and night.

Goal 7 - Community Appearance and Safety Transform the community into one that is physically appealing in terms of aesthetics and safety.

COMPREHENSIVE LAND USE CATEGORIES

Land Use Category: "Neighborhood Commercial"

Description of Land Use Category:

- Provides for offices, professional services, and shopfront retail uses that are pedestrian oriented. Neighborhood Commercial uses should be located at the intersection of a collector and local street or where an existing commercial area has been established.
- Structures should have a maximum size of 5,000 square feet or the square footage of an existing building. A majority of the ground floor façade should be composed of windows. Parking areas should be located behind the building, with the exception of one row of angled or head-in parking along the street. Additionally, all off-street parking and vehicle use areas adjacent to residential uses should have buffer landscaping, lighting and signage controls. Service entrances and/or yards located in the rear or side yard of the business use should be screened from adjacent residential areas and refuse enclosures should be located at the rear of the site and screened. Buffer yards should provide a landscaped separation between residential and commercial uses.

Permitted Zoning Districts:

- O-1, NC, and C-1
- Uses include gift shops, delis, offices, restaurants, beauty parlors, small neighborhood groceries or markets, coffee shops, shoe repair shops and medical clinics. No drive-through establishments are permissible. Live/work units, allowing for residential use above commercial space, as well as a limited number of apartments are permitted.

Land Use Category: "Community Commercial"

Description of Land Use Category:

- Includes medium and high density land uses that draws its customer base from a larger community. This classification can include a mix of uses in the same building or in the

same development. Community Commercial uses are typically located on arterials at major intersections (nodes) or in established commercial areas along arterials. Examples of Community Commercial uses include all Neighborhood Commercial uses, convenience stores with gas stations, grocery stores, plant nurseries, paint/carpet stores, offices, apartments and community shopping centers. Drive through establishments are permissible. Community commercial uses should incorporate well-defined and accessible entrances, shared internal circulation, limited curb cuts to arterial streets, ample sidewalks and shade trees in parking lots, landscaping on planter strips between the parking lot and street and well-designed, monument signage. Community Commercial centers should be designed to create safe, attractive and convenient vehicular and pedestrian linkages with adjoining land uses.

Permitted Zoning Districts:

- O-1.5, NC, C-1, and C-2

ISSUE:

None.

FISCAL IMPACT:

There is no fiscal impact.

ALTERNATIVES:

1. Recommend Approval.
2. Make an Alternate Recommendation.
3. Continue to a future date.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Denial. Planning Commission recommends Approval.

The applicant seeks a Plan Amendment to “Community Commercial” to rezone to “C-2 CD” Commercial District with a Conditional Use for a Bar/Tavern with Cover Charge 3 or more days per week. The proposed “Community Commercial” land use is not appropriate for the area. Surrounding residential land use consists of “Urban Low Density Residential” and “Neighborhood Commercial”. Land use to the West, adjacent to Woodlawn Lake, consists of “Public Institutional” and “Parks Open Space”. The existing “Neighborhood Commercial” land use is fitting, as there is a mix of single-family residential uses, light commercial uses, and park space in the area. “Community Commercial” would introduce a medium to higher intensity land use that is not aligned with the existing neighborhood character.
