RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Planning Commission recommend Approval.

The proposed land use amendment from “Suburban Tier” and “Natural Tier” to “General Urban Tier” is requested to rezone the property to “MF-33” Multi-Family District. The proposed “General Urban Tier” is appropriate future land use designation for the residential development pattern of the surrounding area and is consistent with existing surrounding land use. The subject property is at the intersection of Lakeside Parkway and Ingram Road, making it a suitable land use and zoning for multi-family development. It will also provide additional housing options for the area.

Sector Plan Criteria for review:

- The recommended land use pattern identified in the West/Southwest Sector Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the West/Southwest Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the West/Southwest Sector Plan. The amendment will not adversely impact a portion of, or the entire Planning Area by:
- Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
- Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
- Creating activities that are not compatible with adjacent neighboring uses, and, particularly, the mission of Lackland Airforce Base.
- Significantly alter recreational amenities such as open space, parks, and trails.
