RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the San Antonio International Airport Vicinity Land Use Plan and is currently designated as Business Park in the future land use component of the plan. The requested “C-2” base zoning district is consistent with the future land use designation.
2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area. The surrounding area has a mix of commercial zoning and uses “C-1” Light Commercial, “C-2” Commercial and “C-3
3. **Suitability as Presently Zoned:** The existing “MF-33” Multi-Family District is an appropriate zoning for the property and surrounding area but is out of character with the abutting commercially zoned properties. The proposed “C-2” Commercial is more appropriate and consolidates the subject properties with the same zoning designation as surrounding properties. This will allow for more thoughtful development and cohesion of commercial properties and uses.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The request does not appear to conflict with any public policy objectives of the San Antonio International Airport Vicinity Plan.

Relevant Goals, Recommendations and Themes of the San Antonio International Airport Vicinity Plan may include:

Key Theme 1: Protect airport operations and expansion through compatible uses.

Key Theme 5: Preserve neighborhood integrity and prevent commercial encroachment.

Key Theme 7: Encourage compatible commercial uses along corridors that serve the neighborhoods and more intense commercial uses at major intersection nodes.

Land Use Goal 2: Encourage economic growth that enhances airport operations and surrounding development

Land Use Objective 2.2 Encourage commercial development that respects the integrity of existing residential development.

6. **Size of Tract:** The 1.925-acre site is of sufficient size to accommodate the proposed commercial development.
7. **Other Factors:** The subject property is generally located at the intersection of Gault Lane and Country Village Street about a quarter mile south of NE Loop 410. The property currently contains a commercial parking lot. Surrounding land uses are a mix of commercial, multi-family, and office space. The applicant intends to utilize the property for parking and commercial development.
