RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the Heritage South Sector Plan and is currently designated as "Specialized Center" and "Regional Center" in the future land use component of the plan. The requested "R-4" base zoning district is not consistent with the future land use designation. The applicant has requested a Plan Amendment to "General Urban Tier". Staff recommends Approval. The Planning Commission recommendation is pending the December 14, 2022 hearing.
2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.

- 3. Suitability as Presently Zoned:** The existing "I-1" General Industrial District is an appropriate zoning for the property and surrounding area. The proposed "R-4" Residential Single-Family District is also an appropriate zoning for the property and surrounding area and constitutes a downzoning. The surrounding area is zoned "I-1" General Industrial and "C-3" General Commercial with multiple empty lots. The majority of actual land use includes commercial property. Property to the west of the subject property is zoned "MF-33" Multi-Family with an existing apartment complex and "R-4" Residential Single-Family which is currently vacant. The proposed residential subdivision can provide housing adjacent to an existing elementary school. The request to "R-4" Residential Single-Family is also consistent with the goals and objectives of the Strategic Housing Implementation Plan for more housing to address growing housing needs for all socioeconomic levels.
- 4. Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
- 5. Public Policy:** The request does not appear to conflict with any public policy objectives of the Heritage South Sector Plan.

 - Goal HOU-1: An array of housing choices throughout the area with an appropriate mix of densities and housing types
 - Strategy HOU 1.3: Promote clustered housing including Conservation Subdivision Development and large lot development in rural areas
- 6. Size of Tract:** The 45.1920 acre site is of sufficient size to accommodate the proposed residential development.
- 7. Other Factors:** The applicant intends to subdivide the property for residential development. Based on the raw acreage approximately 400 units can be developed on the lot.
