Overlay District Information:

The "AHOD" Airport Hazard Overlay District, due to the location of the property and its proximity to an airport or approach path, does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

The "HL" Historic Landmark, "HS" Historic Significant or "HE" Historic Exceptional overlay district designation signifies the historic architectural character or cultural significance of the structure or location. Historic Landmark designations do not affect the possible uses of the property, but do regulate the exterior aesthetic of the structure. Building plans and permit applications will be subject to review by the Office of Historic Preservation and the Historic and Design Review Commission (HDRC) prior to any permits being issued.

The "MLOD-2" Lackland Military Lighting Overlay District does not restrict permitted uses, but does regulate outdoor lighting in an effort to minimize night-time light pollution and its effects on operations at the military installation.

FISCAL IMPACT:

There is no fiscal impact.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The subject properties are not located within a Regional Center, but they are located within the Near Westside Premium Transit Corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval. Zoning Commission recommends Approval as amended.

1421 Leal Street is amended to “MF-25” Low Density Multi-Family District.

2107 West Laurel is amended to “R-5 CD” Residential Single-Family with a Conditional Use for two (2) dwelling units.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

- 1. Consistency:** The subject properties are not located within an adopted land use plan and have no future land use designations. The Planning Department is currently in the process of developing future land use designations for the area. Staff has worked closely with the Planning Department to ensure the proposed zoning recommendations are consistent with the development pattern of the surrounding area.
- 2. Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.
- 3. Suitability as Presently Zoned:** Current zoning of properties in the subject area includes a mixture of “MF-33” Multi-Family District, “C-2” Commercial District, “C-3” General

Commercial District, “I-1” General Industrial District, and “I-2” Heavy Industrial District. Most of the area is zoned “MF-33” Multi-Family District although it has developed as residential single-family. Zarzamora Street and Culebra Road are primarily commercial corridors. The subject area has no future land use designations. No plan amendments required. The 2001 adoption of the Unified Development Code converted all 1938 and 1965 zoning districts to the current zoning districts, in turn, this conversion created some non-conforming uses. The rezoning strategy includes, field and data analysis conducted by staff to make appropriate zoning recommendations based on the current use of properties. Various residentially zoned properties are conditionally zoned for two (2) or more dwelling units as part of the rezoning process to avoid non-conforming uses. Properties were removed from the strategy if already appropriately zoned with their current use.

4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** There is no current land use plan for the area. However, the proposed large area rezoning does not conflict with the following goals and strategies of the SA Tomorrow Comprehensive Plan, the long-range planning document that provides policy guidance for future growth, development, land use, infrastructure, and services.

Growth and City Form Goals:

- **GCF Goal 2:** Priority growth areas attract jobs and residents.
- **GCF Goal 5:** Growth and city form support improved livability in existing and future neighborhoods.

Housing Goals and Policies

- **Housing Goal 3:** Housing choices are available in walkable and bikeable neighborhoods located near transit, employment, retail, medical and recreational amenities.
- **Housing Goal 4:** Improved infrastructure, services and amenities increase market demand and attract residents to priority growth areas.

6. **Size of Tract:** Approximately 129.8 acres
7. **Other Factors:** City Council approved a resolution on Nov. 9, 2017 (2017-11-09-0042R), directing the Development Services Department to initiate a large area rezoning to appropriate zoning districts for property generally located within the boundaries of the West End Hope in Action (WEHA) Neighborhood Association. The goal is to align zoning with the current use of properties in the area, consistent with the surrounding land use and/or development pattern. Throughout the past few decades many areas of the center city have had ongoing concerns regarding zoning inconsistencies. These inconsistencies were the result of the code conversion from the “old” zoning code, which utilized an A-J tiered system of zoning, to the new system we use today. The Large Area Rezoning project is meant to address these inconsistencies. Staff is recommending a change of zoning on 1,059 properties for Phase I of the WEHA Large Area Rezoning Project.

The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.
