<p>Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:</p>	<p>For the past 40 years I have had an avid interest in Texas streams, rivers and estuaries. Effective storm water management directly contributes to a viable the health of those entities. Water should be treated as a scarce commodity particularly San Antonio which is sitting on the edge of a desert just 30 miles away west. Storm water runoff should be considered one of the many forms that water can be used as a positive economic generator.</p>
