Permit

2023261

FOR OFFICE USE ONLY

Date

MI DII	MAINTAIN COMPLIANCE WITH THE FLOOD PLAIN ORDINANCE REGULATIONS AND TO ELIMINATE OR NIMIZE FLOOD DAMAGE POTENTIAL TO THE PROPOSED DEVELOPMENT, YOU ARE HEREBY RECTED TO CONSTRUCT YOUR PROPOSED DEVELOPMENT IN ACCORDANCE WITH THE FOLLOWING PECIAL PROVISIONS:						
	For residential structures, the lowest floor (including basement) must be elevated to feet						
	nean sea level. or non-residential structures, the lowest floor (including basement) must be elevated or floodproofed o feet mean sea level.						
	Permittee must submit an elevation certificate from a registered professional engineer or surveyor that the finished floor level of each structure has been constructed at the specified elevation.						
	For non-residential floodproofing, a registered professional engineer or architect must certify that the floodproofing methods are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the base flood.						
~	Other provisions:						
	This permit is good for only 12 months after 12 months this permit will become null and void.						
	If the work does not commence within 6 months a new permit will be required.						
	No material of any kind will be allowed to be deposited or stock piled overnight within the floodplain or drainage right-of-way.						
	Within five (5) working days of a storm event: The property owner is responsible for both (1) repairing any damage that may occur and (2 removing any materials that may be deposited downstream of the subject site as a result of the proposed construction.						
	This Floodplain Development Permit (FPDP) is NOT a construction (/ building) permit. The contractor shall coordinate with the City of San Antonio Development Services Division regarding additional building permit requirements.						
	A variance will be required for the proposed improvements as the structure is within the FEMA 100-year floodplain. Total improvements \$127,750.00 exceed 50% of the BCAD appraisal of 2022 which is \$83,440.00, where 50% is \$41,720.						
	A variance to Appendix F, Sec 35-F133 (7)(A) which indicates "improvements to a structure may not exceed 50% of the fair market value of the structure, any improvements will be tracked over a total of 10-years."						
	Once Planning Commission has issued an approval a new FPDP will be issued for the proposed improvements.						
Is A	Additional Information Required No						
Are	other Federal, State, or Local Permits required Yes, DSD permits

W	ARNING						
	e flood hazard boundary maps and other flood data used by the Flood Plain Administrator in						

regulatory purposes and are based on the best available scientific and engineering data. On rare

occasions greater floods can and will occur and flood heights may be increased by man-made or natural causes. Issuance of this permit does not imply that land outside the areas of special flood hazards or that the uses permitted within such areas will be free from flooding or flood damages due to local conditions. Construction standards required by this permit are the minimum standards deemed necessary to minimize or eliminate flood damage, but reliance on these minimum standards shall not create liability on the part of the City, the Flood Plain Administrator or any officer or employee of the City

Permittee Initial

of San Antonio in the event flooding or flood damage does occur.
