RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the West/Southwest Sector Plan and is currently designated as General Urban Tier in the future land use component of the plan. The requested “R-5 CD” base zoning district is consistent with the future land use designation.
2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.
3. **Suitability as Presently Zoned:** The existing “R-5” Residential Single-Family District is an appropriate zoning for the property and surrounding area. The proposed “R-5 CD” Residential Single-Family with Conditional Use for two (2) dwelling units is also appropriate. The request maintains the base zoning district and the Conditional Use allows consideration of an additional unit. The property is deep and backs up to San Pedro Creek. The slight increase in density also supports the goals and objectives of the Strategic Housing Implementation Plan for alternative housing options for growing housing needs in the city.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The request does not appear to conflict with any public policy objectives of the West/Southwest Sector Plan. The proposal is generally consistent with the below listed goals and policies of the SA Tomorrow Comprehensive Plan as well as the goals and strategies of the West/Southwest Sector Plan.

Relevant Goals and Policies of the Comprehensive Plan may include:

GCF Goal 5: Growth and city form support improved livability in existing and future neighborhoods.

H Goal 2: A variety of housing types (single-family detached, single-family attached, multifamily, as well as ownership and rental opportunities) is available at a variety of price and rent levels.

H Goal 3: Housing choices are available in walkable and bikeable neighborhoods located near transit, employment, retail, medical and recreational amenities.

H P10: Ensure land use designations and other policies allow for and encourage a mixture of housing types and densities of housing within development projects.

Relevant Goals and Strategies of the West/Southwest Sector Plan may include:

Goal LU-1 - Land use pattern emphasizes compatibility and appropriateness between uses and protects neighborhoods and businesses from incompatible land uses.

Goal HOU-1 Housing stock is diverse and densities are distributed in accordance with the adopted West/Southwest Sector Land Use Plan.

HOU-1.2 Provide a range of housing types and prices to accommodate all residents within the Sector and within the same neighborhood.

HOU-3.1 Re-invest in existing residential neighborhoods.

6. **Size of Tract:** The 0.1894 acre site is of sufficient size to accommodate the proposed residential development.
7. **Other Factors:** The subject property is located within the Lackland AFB Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JB SA was notified of the proposed request. The Military has indicated that there are no objections to this request.

The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.

The applicant has submitted a site plan in accordance with the requirements of the code. The site plan indicates residential uses, proposing to develop two (2) dwelling units.
