**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Denial.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on approval criteria below.

- 1. Consistency:** The subject property is located within the North Sector Plan and is currently designated as "Suburban Tier" in the future land use component of the plan. The requested "R-5" base zoning district is consistent with the future land use designation.
- 2. Adverse Impacts on Neighboring Lands:** Staff finds evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is not consistent

with the established development pattern of the surrounding area. The entire area is large lot single-family.

3. **Suitability as Presently Zoned:** The existing “R-5” Residential Single-Family District is an appropriate zoning for the property and surrounding area. The proposed "R-5 CD" Residential Single-Family District with a Conditional Use for a Professional Office is not an appropriate zoning for the property and surrounding area. The property is situated on a block comprised entirely of residential properties. While conditions could be added to request buffers, fencing, lighting and hours of operation, the rezoning appears to be completely out of character with the surrounding properties and introduces commercial encroachment into a primarily residential area.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The request does appear to conflict with any public policy objectives of the North Sector Plan.
  - LU-1.1 Locate buffers between high density/intensity land uses that are potentially incompatible.
  - LU-1.5 Promote flexibility and innovation in residential, business and recreational land uses through planned unit developments, conservation subdivisions, specific plans, mixed use projects, and other innovative development and land use planning techniques.
  - LU-6.5 Encourage development that is visually and functionally compatible with its surrounding neighborhoods by maintaining a massing and density of development that is compatible with adjacent developed neighborhoods.
6. **Size of Tract:** The 0.9 acre site is of sufficient size to accommodate the proposed development.
7. **Other Factors:** The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.

The applicant is rezoning to continue to operate a Professional Office.

The zoning request includes a request for nonresidential uses adjacent (refer to definition in Appendix A as there is a difference between abutting and adjacent) to an existing single family residential use, the applicant is required to construct and maintain a 6-foot solid screen fence, prior to obtaining a Certificate of Occupancy, per Section 35-514(d). The applicant can request City Council modify or exempt this requirement.

For properties that abut lots zoned residential or are developed with a single-family use, the height is restricted to the maximum height of the single-family district within 50 feet of the property line.
