Comprehensive Land Use Categories

Land Use Category: “Neighborhood Commercial”

Description of Land Use Category: Neighborhood Commercial includes lower intensity commercial uses such as small-scale retail or offices, professional services, convenience retail, and shop front retail that serves a market equivalent to a neighborhood. Neighborhood commercial uses should be located at the intersection of residential streets and arterials, and within walking distance of neighborhood residential areas, or along arterials where already established.

Land Use Category: “Low Density Residential”

Description of Land Use Category: Low Density Residential includes single-family detached houses on individual lots at typical suburban densities. RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

The proposed Plan Amendment from “Neighborhood Commercial” to “Low Density Residential” is requested to rezone the property to “RE” Residential Estate District. The current “Neighborhood Commercial” is an appropriate future land use classification as is the proposed “Low Density Residential”.

The property abuts other properties with future land use classification of “Low Density Residential” with residential uses. The change from “Neighborhood Commercial” will prevent any commercial encroachment into the neighborhood. The proposed plan amendment is consistent with the established residential density for the area and will not conflict with abutting properties.

The applicant intends to build a single-family residential home on the 1.8860 acre property.
