RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the Midtown Regional Center Plan and is currently designated as “Urban Low Residential” in the future land use component of the plan. The requested “RM-5” Residential Mixed base zoning district is consistent with the future land use designation.
2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area. The property to the east of the subject site is zoned “RM-4” Residential Mixed District. A variety of residential zoning types are present in the area.
3. **Suitability as Presently Zoned:** The existing “R-6” Residential Single-Family District is an appropriate zoning for the property and surrounding area. The proposed “RM-5” is also appropriate as the area has a mixed of single and multi-family residential housing types. The “RM-5” will allow development of three (3) dwelling units. The adjacent “RM-4” allows up to four (4) dwelling units.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The request does not appear to conflict with any public policy objective. The applicant seeks a zoning change from “R-6” Residential Single-Family District to “RM-5” Residential Mixed District to convert a single-family residence into a triplex. The proposed “RM-5” is compatible with the current zoning and uses along East Ashby Place. Recommendations and Strategies of the Midtown Area Regional Center Plan may include: • Land Use Recommendation #2: encourage zoning that supports the maintenance of neighborhood character while encouraging affordable housing, housing for all stages of life, and housing that is accessible to people with mobility impairments. • Land Use Recommendation #3: Discourage incremental rezoning (both up-zoning and down-zoning) in Midtown neighborhood areas. • Housing Recommendation #1: Ensure that zoning supports a context sensitive supply of diverse housing to support Midtown’s expected housing growth. • Housing Recommendation #3: Maintain affordability and a diversity of housing options by accommodating additional housing in neighborhoods and transition areas through context

sensitive design and small scale, infill housing. • Housing Strategy 3.3: Encourage additional neighborhood housing such as accessory dwelling units and middle-intensity housing types (e.g. duplex, triplex) where consistent with the Future Land Use Plan and policy.

6. **Size of Tract:** The 0.1719 of acre site is currently accommodating an existing single-family residence.
7. **Other Factors** In accordance with the San Antonio City Unified Development Code, the Office of Historic Preservation reviews all demolition applications for any property located within the city limits of San Antonio. Approval of a zoning change does not imply approval of or take the place of such demolition review as directed by the UDC. To date, no application for demolition at this address to accommodate the proposed use has been submitted for review to the Office of Historic Preservation.
