Given the opportunity to influence a significant change in San Antonio, what youth-related issue would you address?	If I could influence significant change within San Antonio I would focus on youth mental health Many teens struggle with healthy mental choices including the processing of our emotions, handling of our emotions, and self-care. I know we all struggle with how to best care for ourselves and ways in which we can take care of our emotional well-being. With everything youth have had to deal with due to the pandemic I believe it"s important to help support the youth in our community and create a culture of openness when it comes to talking about mental health.
What approach would you take? Who would you work with? Why this particular issue?	I believe the best way to help create an open and effective dialogue about teen mental health and well-being is through education. I would want to reach out and work with local organizations such as Clarity Child Guidance Center, the Adolescent Psychiatry Unit at UT Health San Antonio, and San Antonio Behavioral Healthcare Hospital to help provide resources and teaching about how teens can work to better their mental health. I would love to create presentations, youtube videos, and even hold a mental health fair to encourage teens to take a new look into their emotional well-being. The creation of special events such as a relaxation day for just teens to help embrace the idea of self-care would be a great addition as well. I believe it is of the utmost importance to tackle the issue of mental health at a young age as youth are the future and to be the best in the world we have to start with being the best versions of ourselves.
