Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:	It is with great honor that I submit for re appointment to the San Antonio Airport Advisory Commission. As one of our City's greatest economic generators, our airport system is an integral part of our community. It impacts economic growth, provides access to our city's visitors, and provides our business community with access to and from other markets that contribute to our local and global economy. I believe my over 26 years of experience in aviation and the business industry can be an asset to the commission as the commission continues to advise the Aviation Department and the City leadership in their task of growing our airport system to meet and exceed the demands of the future of our great city. In my view, an airport is a vital resource of our municipality that should be managed and used to aid in achieving the future goals of San Antonio and the surrounding areas. There are local issues to consider.the needs of our residents and businesses that bring jobs and revenue into our area. And there are global issues to consider.how the airport system supports San Antonio as it strives to be a global leader in travel, aviation technology, bio tech, cyber security, education, and the arts, just to name a few. In my business, to be a leader in our industry of aviation services, we have to constantly look for ways to be better, to exceed expectations. We must continuously come up with new and innovative ways to better serve those we do business with. This philosophy is what has helped make the top aviation provider it is. And its this same philosophy that I believe will help San Antonio's airport system continue its path to becoming a leader in aviation service. As a City, we have unique needs and thus need unique strategies to manage our airport resources. San Antonio is a very special place and is home to a very special group of people. A city rich in history and ripe with promise for the future. In recent years we have faced challenges and made strides toward improving our airport system to face both the current and future needs of our community. It would be my pleasure to continue to serve on this commission as we continue the momentum of recent months to prepare for the future needs of San Antonio and South Texas. Mark Fessler
