<p>Given the opportunity to influence a significant change in San Antonio, what youth-related issue would you address?</p>	<p>Given the opportunity to influence a significant change in San Antonio, I would address the mental health issues and drug use of teens.</p>
<p>What approach would you take? Who would you work with? Why this particular issue?</p>	<p>First I would take the approach of forming a group of teens that have suffered mental health issues or drug use and have been able to overcome these issues. I would want to talk to them because it is more powerful to hear what they have to say that helped them overcome their issues so that we can replicate them on a bigger scale. It is more meaningful to hear from the teens who overcome these issues than from the perspective of adults who assume what these teens need. After speaking with the teens then the committee could bring adults in to see how we can find resources on a larger scale for the entire city. This issue is so important to me because I see it everyday in my high school. I see how it impacts students attendance, grades and with their overall character. They become different people and feel like there is no hope for them.</p>
