## **RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and Zoning Commission recommend Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the South Central San Antonio Community Plan and is currently designated as “Mixed Use” in the future land use component of the plan. The requested “IDZ-2” with uses permitted in “C-1” and “MF-33” zoning district is consistent with the future land use designation.
2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.
3. **Suitability as Presently Zoned:** The existing “C-3R” General Commercial District is an appropriate zoning for the property and surrounding area. The proposed “IDZ-2” Medium Intensity Infill Development Zone with uses permitted in “C-1” and “MF-33” is appropriate for the property since there are currently both residential and commercial uses found in proximity to the subject site. Infill Development Zone will integrate both uses while also limiting the intensity of commercial uses permitted on the property.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The request does not appear to conflict with public policy objectives South Central San Antonio Community Plan. The proposed zoning change will promote the following principles of South Central San Antonio Community Plan:
  - Encourage patterns of development that provide the full range of housing choices and promote a sense of community, urban vitality, and the efficient provision of infrastructure.
  - Promote economic development and integrate environmental quality protection.
  - Encourage a balance of new development and redevelopment of target areas.
  - Distribute land uses to meet the physical, social, cultural, economic, and energy needs of present and future populations.
6. **Size of Tract:** The 0.794-acre site is of sufficient size to accommodate the proposed residential and commercial development.
7. **Other Factors:** The subject property is located within the Lackland AFB Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JB SA was notified of the proposed request. The Military has indicated that there are no objections to this request.

The applicant seeks to rezone the property to development eighteen (18) residential units and a commercial space.
