28 January 2022

MEMORANDUM FOR CITY OF SAN ANTONIO

FROM: 502 ABW/CMI
JBSA Installation Encroachment Management
2080 Wilson Way
Fort Sam Houston, TX 78234

SUBJECT: Joint Base San Antonio review of Zoning Case Z202110700336, 840 SW 36th Street San Antonio, Texas.

1. Zoning Case Z202110700336, 840 SW 36th Street, San Antonio, Texas, has been reviewed by JBSA-LAK organizations. JBSA does not object with this request, however there are additional comments for consideration in planning and development.
 - a. Due to proximity to Kelly Airfield and Airfield Operations, recommend sound attenuation be considered.
 - b. In order to mitigate potential interference with existing JBSA operational systems, please coordinate with 502 CS Spectrum Manager prior to use of any Spectrum dependent systems (i.e.: two-way radio communications, or any type of wireless technologies) during construction. If applicable, coordination is also requested by facility user prior to installation/use of any Spectrum dependent commercial or manufacturing equipment.
 - c. Any construction plans, equipment (cranes), or towers (communication or water), may require an FAA aeronautical study.
 - d. The FAA recommends criteria of land-use practices in their Advisory Circular 150/5200-33C, Hazardous Wildlife Attractants On or Near Airports, which is applicable to properties within five miles of JBSA-Kelly Field. To reduce the exposure to aircraft-wildlife strikes, please use the link below to access this publication and use the information to help reduce wildlife-attractant features near airports. Unwavering consideration for this aviation safety hazard is vital.
https://www.faa.gov/airports/resources/advisory_circulars/index.cfm/go/document.current/documentnumber/1500_5200-33.
2. The items presented above are efforts to enhance the safety of the community and minimize noise impacts due to the proximity of low flying aircraft. Improperly managed development may create unnecessary risk to both the community and flight operations as well as impact the overall capability of the military at this location.
