VI. WRITTEN AGREEMENT REGARDING SERVICES

6.1 In the event the City annexes the Annexation Area pursuant to the terms of Section 5.3, the Parties agree that this Article VI of this Agreement, shall constitute a Written Agreement Regarding Services required under Chapter 43, section 43.0672 of the Code; shall run with the land; and shall govern all municipal services to be provided to the Annexation Area. The City shall be under no further obligation to negotiate services with any subsequent owners of any property located or developed within the Annexation Area other than the services set forth herein, provided that upon annexation of the Annexation Area, if the municipal services have changed or otherwise include additional services not referenced herein, the City will provide all municipal services to the Annexation Area that apply to other properties located within the City limits within three (3) years after the date of annexation. The Agreement Regarding Services shall survive termination of this Agreement only to the extent the City annexes the Annexation Area pursuant to this Agreement.

In general, this Agreement Regarding Services includes three service components: (1) *Annexation Service Requirements*, (2) *Additional Services*, and (3) a *Capital Improvement Program*. The Parties agree that providing services includes having services provided by any method or means by which the City extends municipal services to any other area of the City. This may include causing or allowing private utilities, governmental entities and other public and private non-profit service organizations to provide such services by contract in whole or in part. It may also include separate agreements with associations or similar entities. Services shall be provided, and fees shall be assessed in accordance with the City's Code of Ordinances, as may be amended.

6.2 **Annexation Service Requirements.** The following services will be provided in the Annexation Area commencing on the effective date of the annexation for full purposes, unless otherwise noted.

6.2.1 **Police Protection.** The San Antonio Police Department ("SAPD") will provide protection and law enforcement services in the Annexation Area within the time frame established in section 6.1.

These services include:

- Routine patrols and responses;
- Handling of complaints and incident reports;
- Special units, such as traffic enforcement, criminal investigations, covert operations, K-9 Unit, Family Assistance Crisis Teams, Bomb Squad, and Special Weapons and Tactics Team; and
- Any other services or programs provided to the citizens of San Antonio at the time of annexation.

The Annexation Area will become part of an existing patrol district based upon factors such as the size of the area, population, and the expected number of calls for service. These factors will also determine the need for hiring additional patrol officers to ensure all patrol districts are adequately staffed twenty-four (24) hours a day, seven (7) days a week, and to maintain an average response time. SAPD San Antonio Fear Free Environment Unit officers will be available to meet as requested to discuss police issues.

Police Substations are responsible for a Patrol "Service Area," under the command of a Captain. These Service Areas are divided into Patrol Sections. The Patrol Sections, with supervisory responsibilities assigned to Sergeants, are divided into "Patrol Districts." The "Patrol Districts" are geographically defined areas established for several reasons, including but not limited to:

- Serving as a manpower distribution tool based on call volume, population, area size, and geographic variables;
- Providing a means of establishing primary responsibility to individual officers, during their tour of duty, for various activities within a specific geographic area; and
- Providing an efficient and effective means of assigning, identifying, and locating officers, within a generalized area, using currently available technology.

The Annexation Area will be served by the substation assigned to that geographic area. There is no specific number of officers that can be assigned to a patrol district. Patrol districts are staffed with at least one officer, twenty-four (24) hours a day, seven (7) days a week. Many times, multiple officers are assigned to single districts.

Police services are initiated by on-sight officer activity, citizen requests, and any other means available. The most common means by which officers receive their assignments is through direct supervisory command and radio/computer transmissions by police dispatchers.

6.2.2 Fire Protection and Emergency Medical Service ("EMS"). The San Antonio Fire Department ("SAFD") will provide fire protection services and EMS service. Service will be provided through the use of fire engines, ladder trucks, full-time and peak period EMS ambulances, Medical Officers, and Chief Officers. SAFD will be providing fire protection and EMS from the station assigned to that geographic area.

6.2.3 Solid Waste Collection Services. Solid Waste Collection services are provided, and fees are assessed in accordance with Chapter 14 of the City' Code of Ordinances, as may be amended. Fees for services are assessed monthly on CPS Energy Utility bills. If private collection services are used, the City solid waste fees will not be assessed.

6.2.3.1 Commercial Solid Waste Services. The City's Commercial collection for garbage are available on a case by case basis for qualifying businesses in a manner similar to residential services. Bulky item, brush and bagged leaf collections are not provided to businesses. If the City-provided commercial service is not desired, businesses may utilize private service providers.

6.2.4 Operation and Maintenance of Water and Wastewater Facilities. If, at the time of annexation, the Annexation Area is not being provided with water and wastewater service, the San Antonio Water System ("SAWS") will extend water and wastewater service to the Annexation Area at the request of a resident pursuant to SAWS policies regarding extensions of service. SAWS will provide water and wastewater service in accordance with standard SAWS policies and procedures.

6.2.5 Operation and Maintenance of Roads and Streets, including Street Lighting. The Transportation and Capital Improvements Department ("TCI") is responsible for the maintenance and repair of streets, bridges, alleys, and related infrastructure within the City's jurisdiction. Curbs, sidewalks, driveway approaches, curb ramps, and other street infrastructures are constructed in accordance with the City and the Americans with Disability Act standards.
