# Authorization to Acquire via Negotiation/Condemnation Prue Road Outfall C – D8

- 2017 Bond Program project Prue Road Outfall C includes the installation of a major underground storm sewer system to carry storm water from Prue Road south to Huebner Creek Tributary A.
- Project requires acquisition of nine parcels along the Outfall C alignment, of which five parcels totaling 1.352 acres remain to be acquired.
- Staff is seeking authorization to acquire the remaining five parcels via negotiation or condemnation but will continue to use efforts to acquire the parcels in good faith negotiations.
