**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the North Sector Plan and is currently designated as "Suburban Tier" in the future land use component of the plan. The requested "MF-18" base zoning district is consistent with the future land use designation.

2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.
3. **Suitability as Presently Zoned:** The existing "R-6" Residential Single Family District is an appropriate zoning for the property and surrounding area. The proposed "MF-18" Limited Density Multi-Family Residential zoning district is also appropriate along a secondary arterial.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The request does not appear to conflict with any public policy objective of the North Sector Plan.

The following Goals from the North Sector Plan are met: HOU-2.4 Consider the use of High Density Residential along the periphery of concentrated employment areas to foster a compatible land use transition between single family detached/attached residential neighborhoods and concentrated locations of non-residential uses. ED-1.1 Continue to locate higher density residential and compatible employment uses near the intersections of: • IH-10 / Loop 410

6. **Size of Tract:** The 20.00 acre site is of sufficient size to accommodate the proposed multi-family development.
7. **Other Factors** The subject property is located within the Camp Bullis Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JB SA was notified of the proposed request. The Military has indicated that there are no objections to this request.

Based on the information provided to SAWS staff, SAWS identifies the subject property as a Category 2 for 9.5 acres of the property and a Category 1 for 809 acres of the property. SAWS staff recommends approval of the zoning request, provided that the impervious cover shall not exceed 45% on the 18.4-acre portion located over the Edwards Aquifer Recharge Zone. Reference SAWS report dated August 25, 2021. The property is proposed for development of multifamily uses that shall not exceed 18 units per acre.

With 20 acres at 18 units per acre there could be a development of 360 units. The lot is currently vacant and the applicant is proposing to construct 300 dwelling units.
