RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Planning Commission recommend Approval.

The proposed land use amendment from "Low Density Mixed Use" to "High Density Mixed Use" is requested in order to rezone the property to "IDZ-2" Medium Intensity Infill Development Zone with uses permitted for 30 residential units. The proposed "High Density Mixed Use" land

use designation is appropriate and consistent with abutting land uses. Although the neighboring properties are designated “Low Density Mixed Use” the area has a mix of uses and the property to the East is developed as Multi-Family. The proposed residential development would be consistent with the land use pattern of the area and would add additional housing options for the neighborhood. Furthermore, the proposed development would create a transition between the commercial uses along Guadalupe and the single-family development to the north.

The Zoning Commission recommended Approval of the rezoning request on March 15, 2022.
