7. A summary of the status of community education and outreach programs and other conservation measures for the Covered Species, including the results of any research conducted with the support of the SEP-HCP;
8. Recommended modifications to Preserve Management Plans or the SEP-HCPs conservation programs that may be warranted via the adaptive management process or changed circumstances;
9. A summary of any compliance-related issues or actions involving Participants, Enrolled Properties, or preserves (including conservation easements); and
