SUBJECT:

Correspondence – ACF-IM-HS-22-09 Enrollment Reductions and Conversions of Head Start Slots to Early Head Start Slots

SUMMARY:

This item presents the following from the Department of Human Services (DHS) Head Start, Early Head Start, and Early Head Start-Child Care Partnership programs for action by the Community Action Advisory Committee (CAAB).

BACKGROUND INFORMATION:

The Head Start program is a national model in the field of early care and education (ECE) for providing high-quality services to children and families most in need. Head Start programs provide comprehensive services and promote progress in children's early learning outcomes in under-resourced communities and support positive family outcomes.

The Office of Head Start (OHS) recognizes that community needs shift over time for various reasons. These reasons may include changes during and after disasters and public health crises, changes in the availability of community resources relied upon to provide program services and shifts in geographical location of eligible children and families. Section 640(g)(3) of the Head Start Act (the Act) allows programs to propose a reduction to their funded enrollment to maintain quality of program services. Additionally, Section 645(a)(5) permits a program to convert Head Start slots to Early Head Start slots to better meet community needs. Similarly, Section 640(±)(2) of the Act allows programs to convert part-day slots to full-working day slots to meet community needs.

A request to reduce funded enrollment or convert Head Start slots to Early Head Start slots is considered a change in scope request and requires OHS prior approval. Recipients may submit a change in scope request through a continuation application or as a separate application amendment in the Head Start Enterprise System (HSES). Change in scope requests must be submitted a minimum of 90 days prior to the planned implementation date. This Information Memorandum (IM) provides additional guidance for the development and submission of these requests.
