**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Denial with an Alternate Recommendation of “L” Light Industrial District.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is not located within a Neighborhood, Community, or Sector Plan therefore a finding of consistency is based on existing and surrounding zoning and uses.
2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request per the alternate recommendation. The proposed use is consistent with the established development pattern of the surrounding area.
3. **Suitability as Presently Zoned:** The property is not located within an existing neighborhood, community, or sector plan; however, the subject property is located within the boundaries of the SA Tomorrow Near Northeast Community Area Plan. The Near Northeast Community Area Plan is a Phase 5 sub-area plan and has not yet been initiated. Therefore, a future land use designation for the subject property has not been assigned. The proposed “I-1” General Industrial District is slightly too intense for the area. There is a mix of zoning designations which includes residential, commercial, and industrial zoning districts, so to align with the applicant’s proposed use of long-term storage and parking, Staff recommends the Alternate Recommendation of “L” Light Industrial District. This will accomplish the applicant’s goals for the property but will limit the higher intense uses allowed by the “I-1” General Industrial District.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** Relevant Goals and Policies of the Comprehensive Plan may include: GCF Goal 5: Growth and city form support improved livability in existing and future neighborhoods. JEC Goal 1: Employment is focused in the city’s 13 Regional Centers, in site-specific locations in Urban Centers and along mobility corridors, providing easy connectivity for San Antonio’s residents and businesses.

facility. The UDC does not specifically list a use category for impound services. The applicant is not proposing to dismantle vehicles for parts resale; therefore, the request has been classified as Parking and/or Storage - Long Term, which is allowed by right in L, I-1, and I-2.
