- GOAL 5: Promote future development that is compatible with existing neighborhoods and that incorporates sound stormwater management practices.
- Objective 5.1: Work with private developers and builders, non-profit housing corporations, city departments, and housing agencies to identify potential areas for residential in-fill housing, targeting existing vacant lots.

Comprehensive Land Use Categories**Land Use Category:** "Urban Low Density Residential"

Description of Land Use Category: Urban Low Density Residential includes a range of housing types including single-family attached and detached houses on individual lots, small lot residences, duplexes, triplexes, fourplexes, cottage homes, manufactured homes, low-rise garden-style apartments, and manufactured home parks. This land use category may also accommodate small scale retail and service uses that are intended to support the adjacent residential uses. Other nonresidential uses, including, but not limited to, schools, places of worship, and parks are appropriate within these areas and should be centrally located to provide easy accessibility.

Permitted Zoning Districts: R-3, R-4, R-5, R-6, RM-5, RM-6, MF-18, MH, MHC, MHP, and NC. Typical densities in this land use category would range from 7 to 18 dwelling units per acre.

Land Use Category: "Employment/Flex Mixed-Use"

Description of Land Use Category: Employment/Flex Mixed-Use provides a flexible live/work environment with an urban mix of residential and light service industrial uses. Uses include smaller-scale office, retail, art studio warehouses, art-oriented fabrication, creative businesses and work spaces, and cottage industrial and fabrication uses. Adaptive uses of vacant or underutilized structures are encouraged to provide residential urban infill and appropriate employment opportunities within or in close proximity to neighborhoods. Buildings have a smaller footprint and can closely resemble campus-like development across multiple sites or with several multi-functioning buildings on one site.

Permitted Zoning Districts: RM-4, MF-18, MF-25, MF-33, O-1, O-1.5, C-1, C-2, L, AE-1, AE-2, AE-3, and AE-4.

IDZ, PUD, MXD, TOD and MPCD may be considered consistent with this land use category, provided the permitted uses included on the zoning site plan and zoning ordinance are consistent with the uses and densities outlined above.
