Overlay District Information:

The "ERZD" Edwards Recharge Zone District does restrict permitted uses, due to the environmentally sensitive nature of the recharge zone. Per Chapter 34 of the City of San Antonio Code of Ordinances, the San Antonio Water System (SAWS) and City of San Antonio departments share regulatory jurisdiction over development within the "ERZD".

The "MLOD-1" Camp Bullis Military Lighting Overlay District does not restrict permitted uses but does regulate outdoor lighting in an effort to minimize night-time light pollution and its effects on operations at the military installation.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the North Sector Plan and is currently designated as “Suburban Tier” in the future land use component of the plan. The requested “MF-25” base zoning district is not consistent with the future land use designation. The applicant has requested a Plan Amendment to “General Urban Tier”. Staff recommends Approval, and the Planning Commission recommendation is pending the June 14, 2023, hearing.
2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area. While the property is situated amongst single-family properties, it is also situated between multi-family development to the north and office and commercial development to the south.
3. **Suitability as Presently Zoned:** The current “R-6” Residential Single-Family District is an appropriate zoning for the property and surrounding area. The proposed “MF-25” Multi-Family District is also appropriate. There are a mix of zoning designations in proximity to the subject property, which accommodate medium to high commercial and residential intensity. Additionally, the request aligns with the goals of the Strategic Housing Implementation Plan (SHIP), which encourages the development of housing to accommodate the city’s growing population.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The request does not appear to conflict with any public policy objectives of the North Sector Plan:
 - HOU-1.2 Encourage compatible growth patterns and transitions of higher density residential along principal arterials and transit corridors that fit in with the existing residential character of the North Sector
 - LU-1.3- Promote variety of housing types between Loop 1604 and Loop 410
6. **Size of Tract:** The subject property is 6.84 Acres, which can reasonably accommodate the proposed residential development.
7. **Other Factors:** The applicant intends to rezone to “MF-25” to allow for residential development, at a maximum density of 25 units per acre. At 6.84 acres, there rezoning could permit the development of 171 units maximum.

Based on the information provided to SAWS staff, SAWS identifies the subject property as a Category 2 property. SAWS staff recommends approval of the zoning request, provided that the impervious cover shall not exceed 50% on the site. Reference SAWS report dated April 7, 2023.

The subject property is located within the Camp Bullis Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JBSA was notified of the proposed request. The Military has indicated that there are no objections to this request.
